DETAILED ACTION

1. Applicants' arguments (Appeal Brief Filed September 28, 2004, Pages 8-15) are persuasive. Rejection of Claims 1, 2 and 4-20 has been withdrawn accordingly.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

The instant invention recites a vehicle data acquisition and display assembly comprising a video processing assembly coupled to at least two image acquisition apparatuses, which uses the acquired images to create a mosaic image of vehicle environment, and a control assembly which selects at least one portion of the mosaic to be selectively displayed by the display assembly display unit coupled to the video processing assembly. The assembly selectively monitors at least one attribute of the vehicle and, in response to the monitored attribute, generates a certain signal that is effective to cause a second portion of the mosaic image to be displayed by the display assembly.

In another embodiment of the instant invention, selection of that portion of the mosaic image is performed by a generated voice command.

The features identified, in combination, are neither discussed nor suggested by the prior arts of record.

3. Claims 1, 2, and 4-20 are allowed.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
